

Feedback for RRMP Research Presentation [Formative]

Tutor completing formative feedback: Karen Outram	Student number: Ali Alzahmi
Details of any extensions etc:	Submission Attempt: Formative

Thank you very much for submitting your formative Research presentation proposal on time.

Make sure that the assignment is very focused when it comes to translating this into the actual summative itself. If you have too many tangents occurring in the content, then you will dilute the research that you engage with for the final summative itself and you won't achieve deep critical discussion as a result.

If your subject is similar to your Literature Review, you need to make sure that you engage in research/discussion that comes from a completely different angle than your Literature Review to avoid self-plagiarism. You have to 'build' upon the subject from the Literature review and not merely just re-interpret the subject.

I look forward to your summative submission, in the meantime please reflect on all of the above and the very best of luck for the summative itself.

With best wishes

Karen
